Tours in Portugal

The Beauty of the Past

Portugal is a country with a rich patrimony and heritage inspired by many different cultures over the centuries as result of the maritime discoveries. It is natural therefore that a wide variety of aesthetic influences can be seen in our civil, religious and military architectural. With so much choice we recommend a visit to the old quarters of the historical towns and country villages to obtain a glimpse of the most interesting manifestations of our culture. We hope this itinerary will reveal a picture that identifies the character of the Portuguese nation, taking the visitor back to the roots and the foundation of Portugal.

The Healthy Mind in the Healthy Body

Spas have been much sought after places since ancient times in the quest for solving health problems and achieving physical and mental well being. As God's gift to mankind they provide a vital therapy for the stress of everyday life. Some traditional spas are used exclusively for health reasons while others provide a refreshing new experience for those who like to take the waters in combination with discovering the beauty and culture of the surrounding environment. There are many spas in Portugal but we invite you to the ones that complement in terms of tourist potential the itinerary created by **Solares de Portugal**. The sulphurous waters here are suited for the treatment of respiratory, rheumatic and skin complaints.
