INTERREG IIIIC

*“Europe of Traditions
a Bridge between Euroregions”*

*Our houses are family homes,
not hotels. They are all lived in
by the owners who greet their
customers as guests.*

*They are all special in the way
that hosts welcome and entertain
guests and in the character and
style of each house and in the
furnishings and surroundings.*

We are delighted to invite you into our network embracing Europe of Traditions offering a personal style of hospitality in homes of character.

Member associations use high-quality guest accommodation to make historic houses self-sustainable. This type of ‘soft’ tourism provides owners with an income, safeguards the future of buildings and contents, and creates permanent employment in rural areas. The strength of each association is the confidence members have in each other. The largest single source of business is from satisfied guests who have stayed at other members’ houses, or in those of other members of Europe of Traditions.

Our houses represent Centuries of Europe history and Culture.

Welcome to Europe of Traditions!

The overall objective of Eurotrad is to contribute to the development of rural soft tourism in Portugal, Slovenia, Austria, Western Hungary, Northern Italy and Northern Spain, through the creation of regional or national networks of castles, farm and country houses, offering private accommodation. This will help in preserving the cultural heritage in rural areas and create lasting employment.

www.europetraditions.eu

The project "EUROTRAD" also aims to introduce new tourism concepts in these regions and countries through the preservation of cultural heritage, renovation and conservation of castles, manors, farm and country houses. The networks created will become members of "Europa Traditionae Consortium".
